## **Wine List**

Welcome!

Wine has the ability to connect people, enhance culinary experiences and create memories. Our wine list consists of wines from all corners of the world, in various styles. With an emphasis on biodynamic and minimum intervention wine making, we want to serve wines that tell a story, reflecting the true nature of where it comes from and what it is made of – fermented grape juice at its absolute best. In addition to this list, we serve a beverage pairing for our tasting menu, created by our Sommeliere.

- Don't be shy to ask, we are happy to help, to find the right wine for you.

**Sandra Biret-Crowley**

## Coravin by the Glass

*Using the Coravin wine preservation system allows wine to be poured without removing the cork! A needle pierces the cork, wine is poured and the system replaces the wine with an inert gas preventing any oxygen from entering the bottle. Therefore the remaining wine is preserved in its original condition. This allows us to offer a much larger selection of wines by the glass some of which would normally only be available by the bottle.*
